Address: Addis Ababa, Ethiopia,

SUMMARY

Computer Science graduate from Bahir Dar University with a outstanding CGPA of 3.93, and hands-on experience building impactful real-world platforms. Successfully developed an e-learning solution and a feature-rich marketplace with an auction system, showcasing expertise in full-stack development, database design, and user-centric functionality. Highly adaptable and a fast learner, I thrive in dynamic environments and am eager to apply data-driven and analytical thinking to drive innovation.
